

Have your say!

While journeying through the different landscapes, you can choose your favourite and least favourite views, and record your opinion using a voting handset.

Why do we want you to take part?

We are interested in your views on the landscape and the changes that are taking place. We want to know your feelings about how our land should be used.

How do we use your feedback?

To help your community to have an input into planning future changes to your environment.

"The distinctive character of our landscape is a valuable asset.

We need to continue to develop and implement land management policies that preserve Scotland's landscapes in a way that is economically, environmentally and socially sustainable.

This facility will help us do that." **MSP Lewis Macdonald**
 former Deputy Minister for the Environment
 and Rural Development at the opening of
 the Macaulay Virtual Landscape Theatre
 May 2005
