beauty and the bog

Carol Taylor MA (RCA)

Carol Taylor is currently involved in collaborations with scientists who "explore and explain the world of plants" (RBGE). She feels it is vital to explore ways in which artists, scientists and community can work together to combat pollution and raise awareness about sustainability and other environmental issues.

This exhibition includes paintings from a collaboration funded during 2009 from a Knowledge Exchange Grant with the Macaulay Land Use Research Institute in Aberdeen.

Sat 30 Jan - Thu 25 Feb

Dancing Light Gallery
Whitmuir, Lamancha,
West Linton, EH46 7BB
